Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE one MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit:

RESTRICTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1,2 , 4-42, 44, drawn to process, classified in class 438, subclass 22.
 - II. Claims 3,43,45,46, drawn to product-by-process, classified in class 257, subclass 14.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be processed by a materially different process such by heat treatment alone with no implantation if one of the elements in the compound semiconductor layer has high diffusion coefficient to result interdiffusion to the adjacent compound semiconductor layer. A product-by-process claim is directed to the product per se, no matter how actually made, In re Hirao, 190 USPQ 15 at 17(footnote). See also Fessmann, 1173 USPQ 685; In re Luck 177 USPQ523; In re Fessmann 180 USPQ 324; In re Avery , 186 USPQ 161; In re Wertheim, 191 USPQ 90; In re Marosi et al, 218 USPQ 289 and particularly In re Thorpe, 227 USPQ 964, all of which make it clear that it is patentability of the final product per se which must be determined by “product by process “ claim , and not the patentability of the process, and that old and product produced by new method is not patentable as a product, whether claimed in “product-by-process”

Art Unit:

claims are not. Note that applicant has a burden of proof in such cases, as the above caselaw makes clear.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to S. Mulpuri, whose phone number is (703) 305-5184
